As a naturopath with a full and busy practice many brochures cross my desk. I do not have the time to follow up on all the material however I did have the opportunity to trial a BEFE Unit from Q-Tech Laboratories which I then purchased.

The results have been surprising.

In cases of both chronic fatigue and severe dermatitis positive results occurred quickly and comfortably. Complete body bathing (which increases body vitality and provides pain relief) reduced symptoms by at least 60% in all cases treated.

Although you are overworked and very busy -do give Q-Tech a call. Listen to what they have to say and read their trial results. Both you and your clients will benefit.
